
Five ways Sage One grows your bookkeeping practice

Get more from your business by getting more from your software

They say a craftsperson is only as good as the tools he chooses to use.

Just as a dull saw and inaccurate measuring tape can hinder a carpenter, a poor choice of accounting software can hinder the growth of your bookkeeping practice.

By contrast, a kit of quality, precise, and powerful tools and support resources can enhance your trade, allowing you to deliver more client results and win more business.

Sage One gives you the tools and the support you need to succeed.

It's more than just software—Sage has an entire ecosystem of support for its partner bookkeepers and accountants designed to help them build successful practices.

In addition to accounting software that will help you save time and improve efficiency, you'll find working with Sage brings perks including free training resources, certification courses, incredible offers for your clients, and a complimentary directory listing so new prospects can find you.

Easy interface

Sage One offers all of the information you need, all in one place. This means no more redundant data entry, no more juggling different programs, and no more time wasted chasing down conflicting figures.

We've also worked hard to make the whole suite as user-friendly as possible, simplifying the learning curve for all users new to Sage One. The easy-to-use interface means you'll spend less time digging up answers to client questions and enjoy more time to work on their file.

The cloud makes it easy for you to work with your clients anywhere, anytime

Sage One uses cloud-based accounting. That means that your clients' accounts can be accessed anytime, anywhere, from any connected device.

- Out of the country on vacation, but need to deal with an accounting emergency? Just find a device with Internet, connect to the secure server, solve the problem for your client, and get back to your relaxation.
- Need to collaborate with a client who's always on the move? Your client can connect remotely to Sage One on her own time.

The cloud also facilitates easy collaboration between accounting professionals and clients. With your complimentary copy of Sage One Accountant Edition, you can access all your clients with one logon and no hassle.

Sage One is in the cloud

The cloud offers precious peace of mind for business owners worried about data breaches caused by lost or malfunctioning devices. Business data is safely stored and backed up on highly secure servers.

Big savings with complimentary subscriptions

A free subscription to Sage One is like giving your clients a \$100 gift.

"Sage is always there as a resource for us. I'm trying to be more efficient with my clients all the time, and Sage helps me with that."

Chenine Humphrey
Paper Trail Bookkeeping

Sage Accountant Solutions

The cloud also facilitates easy collaboration between accounting professionals and clients. With your complimentary copy of Sage One Accountant Edition, you can access all your clients with one logon and no hassle.

Give your clients free access

Be a hero by providing your clients with free access to Sage One.

For only \$25, you can purchase 25 subscriptions for one year to Sage One.

It's a great way to add value to your client relationships while getting them started on an online accounting solution.

Sage One certification

As you know, your work demands a high level of trust because a bookkeeper holds the financial well-being of his or her clients in their hands.

So it's important to assure your clients they are receiving the best quality service available. Becoming a Sage One Certified Advisor will add to the list of your already impressive credentials. Training is available from [Sage University](#).

The short course will prove you are adept at spotting wasteful spending, follow best business practices, and can easily make suggestions to clients to help them improve business efficiency and profitability.

Get listed in the Sage database

Plenty of small business owners turn to Sage to find a qualified bookkeeper or accountant. Sage makes it easy for those prospects to find your business through the [Sage Partner Locator](#) tool.

And, if you've taken the time to become a Sage One Certified Advisor, the Sage Partner Locator will list that expertise and give you priority on searches.

Get to know Sage One

Learn more about Sage products to power your business.

- In the U.S., check out [Sage One Accountant Edition](#) features and pricing.
- In Canada, visit this site for information about [Sage One Accountant Edition](#).

Sage understands one size doesn't fit all—not every business owner defines success the same way, and there's a right solution for every business. Whether your business is a startup, small, or medium, we adapt to your every need, at every turn of your business development. [Connect with Sage](#) today.

Note: To receive and maintain your complimentary Sage One account, you must be an accountant or bookkeeper providing professional accounting or bookkeeping services for multiple fee-paying clients. If at any time Sage determines that you are no longer eligible, your complimentary access will be terminated, and you will be required to enter a valid credit card number (if one is not already on file with Sage) and you will be charged the then-current Sage One monthly autorenewing retail price.
